PROFESSIONAL OBJECTIVE

Motivated and self-driven learner with hands-on experience in building AI-powered applications. Skilled in developing real-world projects using modern AI tools and eager to contribute to innovative technology solutions.

SKILLS

AI & Tools	Google AI Studio, Antigravity, AI Agents
Concepts	Prompt Engineering, Spec-Driven Development, Human-in-the-Loop Systems
Programming	Python (Basic), JavaScript (Basic)
Other	Debugging, Problem Solving, UI Design

EXPERIENCE

AI Intern

Persevex

June 2026 – Present

- Currently undergoing training in AI development and tools.
- Gaining hands-on exposure to building AI-powered applications.
- Learning real-world implementation of AI workflows, agents, and automation.
- Collaborating on practical tasks to understand production-level AI systems.

PROJECTS

AI Career Assistant - Resume Builder

- Developed and deployed an AI-powered web application to generate and improve resumes.
- Implemented human-in-the-loop workflow for user approval.
- Applied spec-driven development for structured outputs.
- Integrated validation and error handling for reliability.
- Designed clean UI for comparing original and improved resumes.
